The operator buttons on the left side represent the areas where the four basic arithmetic operations are active. When you select a category on the screen, you can click other categories to change it.

To open a category, you must have reached at least Round 4 in the previous category.

♥♥♥ 0/3 🔥 0

Die (♥) to stay alive.

⚠️ The indicator **0/3** shows the number of consecutive incorrect answers allowed.

🔥 **0** shows the current score you have earned for each correct answer.

At higher levels, after levels 4, 7, and 9, each of the consecutive incorrect answers increases the score you lose. For example, at level 5, you lose +123 points for every wrong answer.

The button allows you to pause the game.
